

$$3\frac{1}{2} - 1\frac{5}{6} = 3\frac{3}{6} - 1\frac{5}{6} = 2\frac{9}{6} - 1\frac{5}{6} = 1\frac{4}{6} = 1\frac{2}{3}$$

$$4\frac{1}{4} - 1\frac{2}{3}$$

$$3\frac{1}{3} - 1\frac{1}{2}$$

$$5\frac{1}{5} - 2\frac{5}{6}$$

$$6\frac{1}{2} - 1\frac{5}{8}$$

$$6\frac{1}{2} - 4\frac{7}{9}$$

$$5\frac{1}{3} - 3\frac{5}{6}$$

$$7\frac{1}{9} - 2\frac{4}{5}$$

$$4\frac{3}{8} - 2\frac{3}{4}$$

$$3\frac{2}{5} - 2\frac{2}{3}$$

$$4\frac{3}{10} - 3\frac{8}{15}$$

정답
