

$$4 \times 8 = 32$$

8이 $\frac{1}{100}$ 배가 되면 32가 $\frac{1}{100}$ 배가 된다

$$4 \times 0.08 = 0.32$$

$$4 \times 0.08$$

$$= 4 \times \frac{8}{100}$$

$$= \frac{32}{100}$$

$$= 0.32$$

$5 \times 0.02 = 0.1$
