2개씩 묶어서 몇 개인지 세어 보세요.

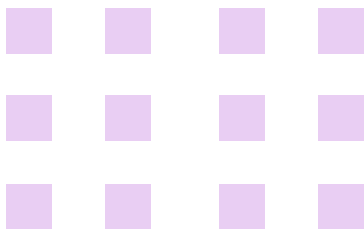

$$2 + 2 + 2 + 2 = 8$$

Diagram showing the addition of four 2s to get 8. Brackets under the first two 2s are labeled '4'. A bracket under the next two 2s is labeled '6'. A final bracket under all four 2s is labeled '8'.

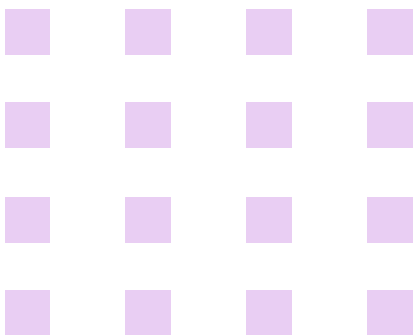

$$2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

Diagram showing the addition of five 2s. Brackets under the first two 2s are labeled '4'. A bracket under the next two 2s is labeled '6'. A bracket under the last two 2s is labeled '8'. The final result line is blank.

$$2 + 2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

Diagram showing the addition of six 2s. Brackets under the first two 2s are labeled '4'. A bracket under the next two 2s is labeled '6'. A bracket under the last two 2s is labeled '8'. The final result line is blank.

$$2 + 2 + 2 + 2 + 2 + 2 + 2 + 2 = \underline{\quad}$$

Diagram showing the addition of eight 2s. Brackets under the first two 2s are labeled '4'. A bracket under the next two 2s is labeled '6'. A bracket under the next two 2s is labeled '8'. A bracket under the next two 2s is labeled '10'. A bracket under the last two 2s is labeled '12'. The final result line is blank.
